facing Linda Surssock Palace,  
Aoun bldg. Ground Floor

**I**t all began when Hala Tayah was only 10 years old. She started painting and developing her creative sense. Fifteen years ago she began designing jewelry and considered herself a designer once she started selling her pieces to the most notorious Lebanese jewelers. Her career was put on hold when she got married, moved abroad and gave birth to her beautiful twins Tia Maria and Tarek. Two Years back, when she regained some alone and personal "Hala" time, she got back on track. With her family and friends supporting her she launched her own jewelry collection. She became known for her refined and exclusive designs, always portraying grace with the stones she inserted. She mainly works with gold, diamonds, precious and semi precious stones and pearls.

Her pride and devotion to her country combined with her ingenious, artistic mind inspired her to create an exceptionally striking piece of art. One piece that would become timeless as it portrays a long lasting message. The design is quite straightforward yet so prevailing, a necklace on which

is placed in, the sentence "keep Lebanon close to your heart®", where the word heart is replaced with a precious or semi precious stone in the shape of a heart, and a pendant featuring the map of Lebanon. The collection is a patented limited series of 10,452 handmade necklaces for both woman and men corresponding to the surface area of Lebanon, crafted by skilled artisans and designed as a tribute to the nation of Lebanon, each pendant is made of the finest 18k gold stamped with a hallmark and numbered seal with a certificate of authenticity. Each piece is a tailor made masterpiece, personalized according to the specifications of the collector. Upon request, the necklace can be encrusted with diamonds shaping the map of Lebanon or ordered without precious stones. It can also be customized with a leather cord or with a simple gold chain and an engraving elegantly hanging from the back.

The conception of "keep Lebanon close to your heart®" is simply beautiful and touching. As the necklace is worn, the map is hanging close to the heart.
